

Bridge Project: Functional Requirement Document (FRD)

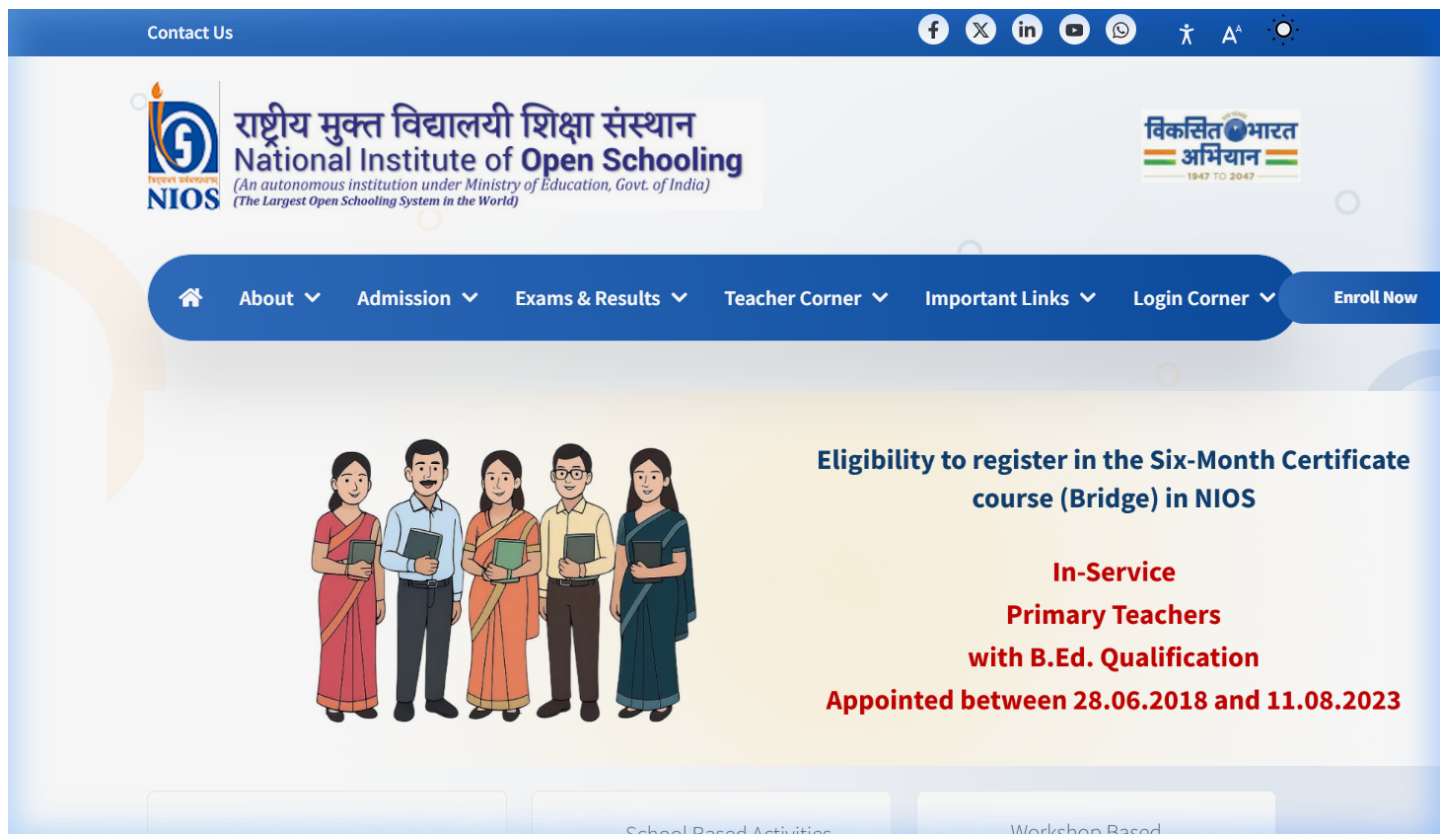

1. Introduction

The Bridge application is a comprehensive portal designed for teacher registration, certification, and educational services. This document outlines the functional requirements, user interface specifications, and business logic for the core modules of the Bridge platform, focusing on user-facing features.

2. User Interface & Functional Modules

2.1 Landing Page & Navigation

- **Hero Section** – High-impact banner with navigation links (About, Admission, Exams & Results, Teacher Corner, Important Links, Login Corner, Enroll Now).
- **Quick Links** – Direct access to Syllabus, E-Services, Study Material, etc.

2.2 Login Screen

- **Email / Reference No.** – Text input.
- **Password** – Masked entry.
- **Clear Button** – Resets all fields.
- **Real-time validation** – Shows errors for missing/incorrect data.

Eligibility Criteria & Instructions

- 1 Only in-service primary teachers with B.Ed. qualification
- 2 Appointed for the period from 28.06.2018 to 11.08.2023, as per NCTE notification dated.
- 3 Must complete the course within 1 year of NIOS course commencement.
- 4 Failure to complete the course will invalidate appointment
- 5 Course valid only for retaining existing employment, not for future recruitment
- 6 Teachers must have been appointed to their positions based on the validity of their B.Ed. qualification as per the National Council for Teacher Education's notification.

Login using Application / Reference / Enrollment No And Date of Birth

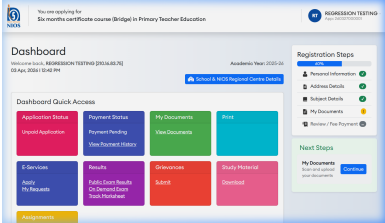

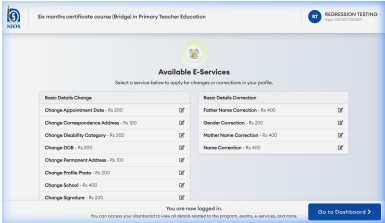

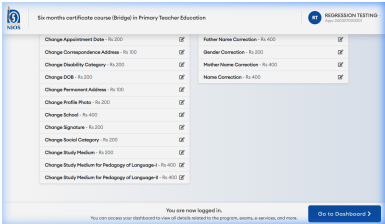

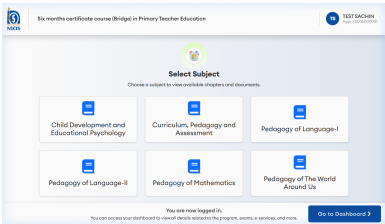

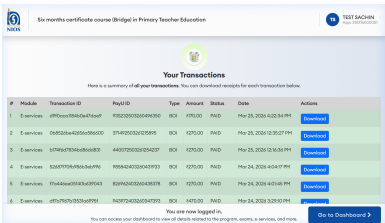

The registration wizard consists of seven sequential stages.

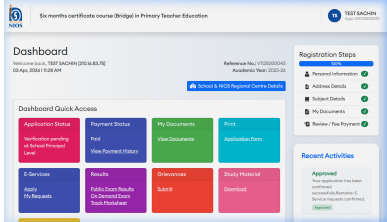

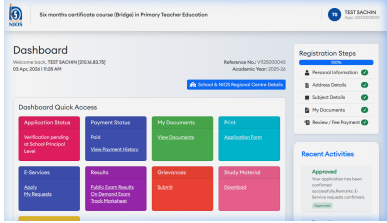

Stage	Description	Screenshot
Stage 1 – Basic Details	Full name, parents' names, DOB, gender, UDISE code, Teacher ID.	
Stage 2 – Authentication & OTP	Email, mobile number, OTP entry (6 digit numeric).	

Stage 3 – Personal Info	Social Category, Medium of Study, optional details.	
Stage 4 – Address Details	Address lines, State → District dynamic selection.	
Stage 5 – Eligibility & Subjects	Date of Appointment, selection of subjects and medium.	
Stage 6 – Document Upload	Upload Photo, Signature, B.Ed Certificate, etc.	
Stage 7 – Review & Submit	Read only summary with section-wise edit functionality.	
Final Confirmation	Transaction details and successful enrollment message.	

4. PostLogin Dashboard & EServices Overview

After successful enrollment (100% progress), the teacher gains access to a tile-based dashboard providing educational and administrative services.

Tile	Purpose	Screenshot (Original)
Progress	Shows 100% completion status post-registration.	
E-Services Grid	Selection interface for 16 different profile modifications/corrections.	
E-Services List	Detailed view showing fees and categories for all 16 services.	
Study Material	Download academic resources.	
Payment Status	View transaction history and download receipts.	

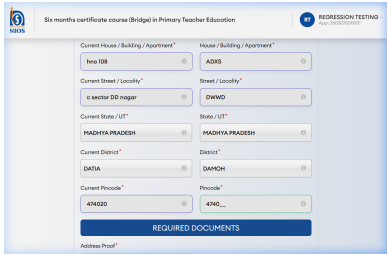

Grievances	Lodge and track support tickets.	
Results	View and download performance certificates.	

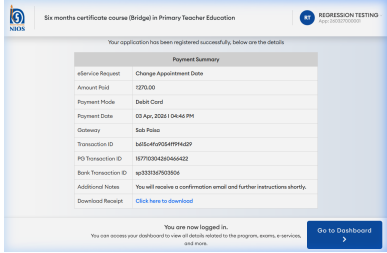

5. E-Services Module (Detailed Requirements)

The E-Services module is the primary interface for teachers to update their profiles after registration.

5.1 Security & Access Workflow

Every E-Service request is protected by a **Two-Factor Authentication (2FA)** step. 1. **Selection:** User selects a service from the grid/list. 2. **OTP Verification:** A 6-digit OTP is sent to the registered mobile/email. 3. **Fill Form:** (Pre-requisite: OTP Success) Teacher enters new data and uploads supporting documents. 4. **Payment:** (Optional: varies by service) Transaction fee payment via SabPaisa. 5. **Confirmation:** System displays a unique Request ID and payment summary.

Stage	Process Description	Screenshot (Live)
OTP Entry	User enters the 6-digit verification code to unlock the service form.	
Fill Form	Side-by-side comparison of Current vs New data fields. Mandatory document upload.	

Final Success	Transaction confirmation showing Paid Amount, Gateway ID, and Status.	
---------------	---	---

5.2 Service Categories & Fees

The portal categorizes services into **Change** (profile updates) and **Correction** (fixing errors). Fees range from Rs 100 to Rs 400.

Category	Service Type	Fee (Rs)	File Value	Form Screenshot (Original)
Basic Change Details	Change Address	100	House No, Locality, State (Dropdown), Pincode (6-digit numeric).	
Change Permanent Address	Change Permanent Address	100	Same as above. Supporting address proof (JPG/PDF < 2MB).	
Change Appointment Date	Change Appointment Date	200	Restricted date-picker (min/max year constraints).	
				

			Change Profile Photo	Image upload (JPG/PNG), enforced aspect ratio, < 2MB.
			Change Signature	Image upload (JPG/PNG), enforced aspect ratio, < 2MB.
			Change Social Category	Category selection (SC/ST/OBC/GEN). Cert upload required.
			Change Study Medium	Selection among English/Hindi/Regional.
			Change School	UDISE Code (AJAX verify), Principal approval may be needed.

				Alphabetic only, max 100 chars.
Basic Details	Name Correction	400		BEd Certificate mandatory.
	Father Name Correction	400		Same as above.
	Mother Name Correction	400		Same as above.
	Gender Correction	200		Fixed options (Male/Female/Trans).

5.3 Common Form Logic

- **Mandatory Uploads:** Almost all E-Services require one primary supporting document (JPG/PDF, max 2MB).
- **Read-Only Fields:** The system displays the *current* state of the information side-by-side with the *new input* fields.
- **Auto-Formatting:** Names and addresses are automatically converted to uppercase via CSS/JS.

6. Field Validation & Business Rules Summary

Pa	Field	Validation / Logic
Registration	Matr. Code	Must be valid in backend; numeric only.
	Social Category	Mandatory selection from predefined list.
	Documents	JPG/PNG/PDF formats; size < 2MB.
Login	CAPTCHA	Case-sensitive numeric entry required.

	Payment Gateway	Consent to payment terms required before redirect.
	E-Services	Required before form access; 6-digit numeric.

7. Conclusion

The Bridge portal provides a streamlined, documented registration and profile management process. The use of live-captured screenshots ensures this FRD reflects the actual system behavior and requirements.
