

Bug Report: E-Services - Change Date of Birth (DOB) Loading Issue

Bug Description

The "Change Date of Birth" (DOB) e-service fails to load the form data consistently. When navigating to the service or after OTP verification, the page often results in a loading error or the form fields remain blank/unpopulated, blocking further automation or manual processing.

Steps to Reproduce

1. Login to the Bridge portal.
2. Navigate to "E-Services" -> "Apply".
3. Click on the "Change Date of Birth" service.
4. Complete OTP verification.
5. Observed: The form page does not load correctly or shows a loading error.

Impact

- **Automation Impact:** Script fails to find form elements for DOM analysis and automation.
 - **User Impact:** Teachers cannot update their Date of Birth through the e-service due to technical instability.

Bug Report: E-Services - Change Disability Category OTP Submission Issue

Bug Description

The "Change Disability Category" e-service throws a system error during OTP submission. After entering a valid OTP and clicking verify, a red error toast appears stating "An error occurred. Please try again.", preventing the user from reaching the form page.

Steps to Reproduce

1. Login to the Bridge portal.
2. Navigate to "E-Services" -> "Apply".
3. Click on the "Change Disability Category" service.
4. Enter OTP and click Verify.
5. Observed: Red Toast Error: **"An error occurred. Please try again."**

Impact

- **Automation Impact:** Script is blocked at the OTP verification stage.
- **User Impact:** Teachers cannot update their disability category.

Workaround Implemented (Automation)

- None (System-level failure). The script skips this service if it fails to progress.
